

New JetRoller System

In-line valve provides even paint flow and eliminates dipping the roller in paint – up to 40% faster than standard rolling

3 Tools in 1

- ✓ Spray Roller
- ✓ Spray Extension
- ✓ Hand Roller

Saves Time & Money

- Minimize application time when combining rolling and spraying into one operation
- Combines the advantages of airless spraying with the ease of a roller

Industry Compatibility

- Standard Roller covers
- Standard Extensions
- Standard Sprayers

Easy detach handle allows independent use of spray extension or hand roller (yellow touch identifies latch)

Overspray is virtually eliminated with low pressure Graco tips

CleanShot Shut-Off Valve eliminates spits, leaks, and drips

Uses commonly available 9" or 18" roller covers
